	Revision 1 26-Jan-2
	SAFETY DATA SHEET
- POOL SUPPLIES	Multifunctional Chlorine Tablets 20g/200g
1.1 Product Identifier	
Trade Name:Multifunctional Chlorin	ne Tablets 20g/200g
1.2 Relevant Identified uses of the subs	tance or mixture and uses advised against
Uses: For disinfection of pool a	nd spa water.
1.3 Details of the supplier of the safety Company: Deep Blue Pool Su Box 8899 Hermita Corsham, SN13 8	upplies age,
Telephone: +44 (0) 3330 907094	
Fax: +44 (0) 3330 907094	
E-mail: <u>help@deepbluepoolsupp</u>	<u>lies.co.uk</u>
1.4 Emergency Telephone Tel: +44 (0) 3330 90709 Tel: 111 (Out of hour	, ,
Acute Tox. 4 *H302Eye Irrit. 2H319STOT SE 3H335Aquatic Acute 1H410Aquatic Chronic 1For the full text of the H statements	mentioned in this section see Section 16.
Most important adverse effects Human Health: Physical & Chemical Hazards: Potential environmental effects:	See section 11 for toxicological information See section 9 for physicochemical information See section 12 for environmental information
2.2 Label elements Labelling according to Regulation (E 1272/2008 Hazard symbols:	C) No
GHS07	GHS09
Signal word: Warnir	Ig
Hazard statements: H302 H319 H335 H410	Harmful if swallowed. Causes serious eye irritation. May cause respiratory irritation. Very toxic to aquatic life with long lasting effects.
P261 Avoid br	If medical advice is needed, have product container or label at hand. of reach of children reathing dust. VALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

 4.1 Description of first aid measures: General Advice: If inhaled: Move to fresh air. Seek medical advice. In severe cases pulmonary oedema can be delayed by up to 48 hours. In case of skin contact: If large areas of the skin is damaged or if irritation persists seek medical attention. In case of eye contact: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. Get medical attention. If swallowed: Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Call a physician immediately. 4.2 Most important symptoms and effects, both acute and delayed: Symptoms & Effects: No further information available. 	P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P405 Store locked up
Warning! Do not use together with other products. May release dangerous gases (chlorine) 2.3 Other Hazards PBT /vPv8: Not applicable 3. Composition/Information on ingredients 3.2 Chemical nature: Mixture of substances listed below with nonhazardous additions. CAS-NO. EINECS atrichloroisocyanuric acid 87-90-1 201-782-8 613-031-00-5 75 – 100% Ox. Symptoms & Effects: No further information available.	give anything by mouth to an unconscious person. Do NOT induce
	4.2 Most important symptoms and effects, both acute and delayed:
	Symptoms & Effects: No further information available.
4.3Indication of immediate medical attention and special treatment needed: No further information available.	4.3Indication of immediate medical attention and special treatment needed: No further information available.

5. Fire fighting measures	
5.1 Extinguishing media:	
Suitable media: Water,	Water spray, carbon dioxide or fog (large quantities available)
Unsuitable media:Exting	uishing powder, Foam, Water with full jet
5.2 Special hazards arising from	the substance or mixture
Specific Hazards:	
Formation of toxic gases is p	ossible during heating or in case of fire. In case of fire, the following can be released:
	May produce toxic fumes of NOx and HCl if burning.
5.3 Advice for fire-fighters:	
Protective equipment:	
	Fire-fighters should wear full protective clothing and self-contained breathing
	apparatus (SCBA). Thoroughly decontaminate fire-fighting equipment including all fire fighters wearing apparel after the incident.
Further Information:	
	Cool endangered receptacles with water spray. Collect contaminated fire fighting
	water separately. It must not enter the sewage system
6. Accidental release Measures	otective equipment and emergency procedures:
Personal Precautions; pro	Avoid formation of dust. Ensure adequate ventilation.
	Mount respiratory protective device
6.2 Environmental preca	utions:
Environmental precaution	ns: Do not flush into surface water or sanitary sewer system.
	Avoid subsoil penetration.
	Inform respective authorities about pollution to water sources. Local authorities should be advised if significant spillages cannot be contained.
	Local authornies should be auvised it significant spinages cannot be contained.
6.3 Methods and materials f	or containment and cleaning up:
Cleaning up:	
	Dispose contaminated material as waste according to item 13.Ensure adequate ventilation.
6.4 Reference to other section	
	For personal protection see section 8

7. Handling and storage	
7.1 Precautions for safe handlin	ng:
Advice on safe handling:	
to product. Alwa	agent. DO NOT MIX WITH OTHER CHEMICALS. Mix only with water. Never add water ays add product to water. Use clean dry dispensing equipment. Avoid contact with skin n cool, dry place in closed receptacles. Provide suction extractors if dust is formed.
Hygiene measures:	
prohibited in the	food, drink and animal feeding stuffs. Smoking, eating and drinking should be application area. Wash hands before breaks and at the end of the work day. Take ted clothing immediately. Provide adequate ventilation.
Requirements to be met by about storage in one comm	including any incompatibilities. storerooms and receptacles: Store only in the original receptacle. Information non storage facility: Do not store together with acids. Further information about from humidity and water. Keep container tightly sealed. Store in cool, dry eceptacles.
Storage class: 13	
7.3 Specific end uses Specific use(s) No info	rmation is available.
workplace.	ection ny relevant quantities of materials with critical values that have to be monitored at the s valid during the making were used as basis.
8.2 Exposure controls Engineering measures:	Fume cupboard required when vapours/aerosol are
Lingineering measures.	generated. Refer to protective measures listed in sections 7 and 8.
Personal protective equipm Protective and hygienic me	
Frotective and hygienic me	Keep away from foodstuffs, beverages and feed.
	Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes.
Respiratory protection:	Avoid contact with the eyes and skin.
Respiratory protection.	In case of brief exposure or low pollution use respiratory filter device Filter AB2P2. Filter AB2P3. In case of intensive or longer exposure use self- contained respiratory protective device Wear protective gloves. The selected protective gloves have to satisfy the specifications of EU
Directive Hand protection:	Wear suitable chemical resistant gloves. The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
	Material of gloves- The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.
	Penetration time of glove material- The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
	For the permanent contact gloves made of the following materials are suitable: Nitrile rubber, NBR Chloroprene rubber, CR Butyl rubber, BR

Eye protection: Wear	tightly sealed goggles
Skin and body protection:	Wear appropriate clothing to prevent repeated or prolonged contact, boots and apron.
	e controls: Dispose of in accordance with all applicable local and national regulations.
9. Physical and chemical propert	ies
9.1 Information on basic phys	sical and chemical properties
Form Tablets	
Colour: White	
Odour: Like ch	lorine
	ld: Not determined.
	;/l) at 20 °C: Not determined.
	Melting range: 225-240 °C
	oiling range: Undetermined.
Flash point: No	
	solid gaseous): Undetermined.
-	temperature: 225 °C
	roduct is not selfigniting.
. .	losion: Product does not present an explosion hazard.
-	s: Lower / Upper: Not determined.
Vapour pressu	re: Not applicable.
Density at 20 °	C: Not applicable
Relative densit	y Not determined.
Vapour density	/ Not applicable.
	te Not applicable.
-	Aiscibility with water at 25 °C: Not determined.
-	cient (n-octanol/water): Not determined.
Solvent conten	
Solids content:	
Solids content.	100.0070
9.2 Other Information No fu	rther information
10. Stability and reactivity	
10.1 Reactivity:	No. 1. Comparison and the late
Reactivity:	No information available.
10.2 Chemical stability:	
Chemical stability:	To avoid thermal decomposition do not overheat.
chemical stability.	to avoid thermal decomposition do not overheat.
10.3 Possibility of hazardous re Hazardous reactions:	eactions:
	Deaste with ovidicing agents Deaste with strong alkali. Deaste with arrives Charge
	Reacts with oxidising agents. Reacts with strong alkali. Reacts with amines. Strong exothermic reaction with acids. Reacts with flammable substances. Reacts with acids releasing chlorine. Reacts with reducing agents
10.4 Conditions to avoid:	
	No information available.
10.5 Incompatible materials:	
Materials to avoid:	
	No information available.
10.6 Hazardous decompositior	n products
Haz. Decomp. products:	Hydrogen chloride (HCl)
	Chlorine
	Nitrogen oxides (NOx)
11. Toxicological Information	
_	laffacts
11.1 Information on toxilogical	
Acute toxicity: Harmful if	swallowed

Name	Route	Species	Test	Value	Units
trichloroisocyanuric acid	Oral	Rat	LD50	>406	mg/kg
Boric acid	Oral	Human	LD50	2,660	mg/kg
Copper sulphate pentahydrate	Irak	Rat	LD50	>482	mg/kg

Primary Irritant effect:

Skin corrosion/irritation: Based on available data, the classification criteria are not met.

Serious eye damage/irritation: Causes serious eye irritation.

Respiratory or skin sensitisation: Based on available data, the classification criteria are not met.

CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)

Germ cell mutagenicity: Based on available data, the classification criteria are not met.

Carcinogenicity: Based on available data, the classification criteria are not met.

Reproductive toxicity : Based on available data, the classification criteria are not met.

STOT-single exposure: May cause respiratory irritation.

STOT-repeated exposure: Based on available data, the classification criteria are not met.

Aspiration hazard: Based on available data, the classification criteria are not met.

12. Ecological Information

12.1 Toxicity: Acute Toxicity:

87-90-1 symclosene

EC50 0.5 mg/l (Selenastrum capricornutum (Grünalge))

0.2 mg/l (daphnia) (Modified method based on the ASTM method E645-85) LC50 0.3 mg/l (Danio rerio (Zebrabärbling))

10043-35-3 boric acid

NOEC 10 mg/l (Chlorella pyrenoidosa) LC50 133 mg/l (daphnia) (ASTM Standard E 729-80)

12.2 Persistence and degradability Persistence and degradability No further relevant information available.

12.3 Bioaccumlative potential

Bioaccumlative potential No further relevant information available.

12.4 Mobility in soil	
12.4 Mobility in soil Mobility in soil No further relevant informatio	
Ecotoxical effects: Remark: Very toxic for fish	
Behaviour in sewage processing plants	
10043-35-3 boric acid	
NOEC 180 mg/l (Activated sludge) (OECD "Chi	ronomid testing using spiked sediment")
Additional ecological information:	
General notes:	
Water hazard class 2 (German Regulation) (Se	elf-assessment): extremely hazardous for water
Do not allow product to reach ground water,	water course or sewage system, even in small quantities.
Danger to drinking water if even extremely sn	nall quantities leak into the ground.
Also poisonous for fish and plankton in water	bodies.
Very toxic for aquatic organisms	
12.5 Results of PBT and PvB assessment	
Results of PBT and PvB Not applicable	
12.6 Other adverse effects	
	ormation available.12.6 Other adverse effects:.
13. Disposal Considerations 13.1 Waste treatment methods:	
Product:	
Disposal together with norma	l waste is not allowed. Special disposal is required according to local
regulations. Do not let produc	t enter drains. Contact waste disposal services.
Contaminated packaging:	
	ng thoroughly. They can be re-cycled after thorough and proper
Recommended cleansing agents:	ot be cleaned is to be disposed of in the same manner as the product
Water, if necessary together v	with cleansing agents
14. Transport Information	
14.1 UN Number	3077
14.2 UN proper shipping name	
3077 ENVIRONMENTALLY HAZARDOUS SU	BSTANCE, SOLID N.O.S. (SODIUM DICHLOROISOCYANURATE DIHYDRATE)
14.3 Transport hazard class(es)	
Class	9
Hazard label	9
Transport Category	3
Transport cutegory	5
14.4 Packaging Group	Ш
14.5 Environmental hazards	
Marine Pollutant	Yes
Special marking (ADR): Symbol fish	and tree
Special marking (IATA): Symbol fish	
14.6 Special precautions for user:	
Danger coc	de (Kemler): 90

	EMS Number: F-A,S-F
	Stowage Category A
